About

St Louis School has been a CIE school for 7 years and an IB school for 5 years. We have the highest IB results year on year in mainland Europe and we are dedicated to a rounded education system, with the IGCSE and IB programs.

Our online learning journey

St Louis is a Google School and we work very closely with Google Apps.

In 2020 St Louis School trialed Education Perfect and subscribed to the full-suite subsequently.

Why Education Perfect (EP)

We came by EP almost by accident when the quarantine hit Italy and we were forced online. Almost instantly it was clear how useful EP was going to be to our school during the lockdown, but we also realized the great potential for EP in a normal school day and we decided to extend the free trial period and subscribed for 2021.

“A great tool which helps Teachers
focus their time on students”

Nick Tollitt

English Teacher

St Louis International School

Impact

- Our teachers spend more time on personalised learning plans and less on admin tasks
- It is so much easier to deliver on subject tasks at required levels, with no marking and excellent analysis tools
- There are very well prepared smart lessons and assessment tasks and they are building all the time
- Great work EP, and we are loving the Platform.
